Yellow flowers in Finland used to make cooking oil

Hello Everyone,

When we left Norway at the beginning of April, snow was on the ground. It had been snowing for a week. Driving into Finland and seeing the beginning of spring popping up through the snow reminded us of the life we receive in Christ.

Our five week adventure in Finland was very powerful. We visited 15 different churches, home meetings and healing centers. We witnessed the Lord heal physical and spiritual problems. We prayed over a building that would be used for God's Glory and ministered to leaders in different churches. We have seen shoulders healed, backs strengthened, kidney stones crushed, fevers leave, cancer driven out, varicose veins reduced, one's voice loosed to sing again, pain released for many, ears opened, veins reconnected, inner healing received and individuals baptized in the Holy Spirit.

His anointing in each meeting was so powerful and amazing to see. It always leaves us with a sense of awe and wonder of our God who moves in such a magnificent way because of His love for His creation.

More revelation has been laid in our hearts about honor. To see all the people relate to each other on the same level. To see them as God sees them. People created in God's image with all the gifts and callings that God had laid at their feet. We are to place great value on each individual as God does. That means I will not talk down to you or talk up but we are on the same level of importance and honor.

Dear brothers and sisters honor each other with great value as God does. You will be hearing more on the subject of honor as we move deeper into what God has placed on our hearts.

1 Peter 2:17 Honour all *men*.

Pictures of the yellow flowers are a small sample of how many fields will look this Spring in Finland. The house in the background is that of our wonderful friends, Petri and Tea Latvala. They are perfect hosts to us when we are in Loviisa.

God's Great Love to you all,

Kevin & Deborah Martin
